

# Christmas Lace Ornament Cover!

## Materials:

**Floraini Wet N Gone**  
**Floriani Thread White PF801**  
**Red PF703**  
**GoldPF503**

The designs I used came from [www.emblibrary.com](http://www.emblibrary.com) and can be found under Christmas Lace Ornaments, you can simple download the designs straight from the web site.

## Step 1

Hoop a single layer of Wet N Gone in your embroidery hoop, make sure you have a nice firm finish in your hoop – it does not need to be drum tight

## Step 2

You need to wind your bobbins in the same colour as that of which your design will be sewn out in as this achieves a much better result.

## Step 3

Simply sew your designs out on Wet N Gone when you are finished rinse in water –while still damp thread your ribbon through the top and bottom and secure around your ornament, this helps shape your lace while it dries. You are now finished, these don't take long to make and are a wonderful little Christmas gift.
